## STARKEY MORTGAGE
*Where People Come First*

"XDOC easily integrated with our existing backend loan processing system and had the mortgage specific options that we were looking for. It has great options, it's easy to use, and it's all web based. We are very pleased. XDOC is a huge time saver. It gives a lot of flexibility with how we do business. The support has been fantastic and Axacore is always extremely responsive."

**Bill Burke** | Senior Vice President

## BOX HOME LOANS®

"We have used XDOC with two different off-the-shelf LOS's for five years, and found it to be stable and intuitive. Recently, we have developed a proprietary LOS, and we chose XDOC as our imaging solution. We couldn't be happier with it. Without question, it is the most competitively priced solution on the market. Secondly, with its API we have been able to achieve a deep level of integration that has opened doors for the management and workflow of documents that we didn't know existed. The application is very flexible and customizable."

**Jeff Reeves** | Owner

## RPM MORTGAGE

"We looked at many offerings and decided that Axacore was the best fit. We previously used the Axacore platform as provided by our previous LOS. Being able to transition without having to retrain our users as well as having the opportunity to access additional features made for an easy decision. We are growing and the scalability and flexibility of Axacore's enterprise platform will grow with us."

**Ben Chaffin** | CIO of RPM

## AmeriPro FUNDING

"We required a more robust and flexible EDM solution than what is offered by our Loan Origination System. We vetted a number of solutions and Axacore's XDOC met all of our requirements. Their simple and straight forward pricing model also provides an industry leading return on our investment. Axacore's integration abilities, flexibility and granular document and user level security has allowed us to reach levels of efficiency that otherwise would not have been possible."

**Tad Hensley** | VP Technology Development at AmeriPro Funding

## new penn FINANCIAL

"XDOC has allowed us to gain efficiencies that would not have been possible with paper files. We looked at many imaging solutions and XDOC proved to have all of the features we needed to run our business with minimal disruption to our existing processes."

**Jerry Schiano** | President/CEO

## D+H FINANCIAL™ TECHNOLOGIES. SOLUTIONS FOR PEOPLE.

"Mortgagebot*LOS*™ brings our clients a next-gen, cloud-based loan origination system that meets the demands of today's on-the-go lenders and borrowers. The integration of Scrypt's XDOC document management capabilities into our solution helps make it possible for D+H to deliver the benefits of a paperless process — reduces costs, less risk and greater efficiency — with the seamless experience our clients expect."

**Mitch Lucas** | VP Product Management at D&H

# We are Scrypt. Work confident.

Scrypt Inc. has an unwavering focus on transforming document management and delivery within regulated industries. We have been highly successfully in helping our healthcare and lending customers streamline paper-intensive processes and protect sensitive and business-critical information.

Scrypt works tirelessly every day to deliver customer value by harnessing cloud and on-premise document solutions that include Sfax, Stak, XDOC and FaxAgent. We remain dedicated to eliminating manual process and paper so that our customers can work better, with confidence. For more information visit **www.scrypt.com.**
